MEMORANDUM FOR: Deputy Director, Intelligence Community Staff
Deputy Director for Operations

DO/IAD

DI/OGI

OGC

25X1

FROM : SA/DCI/IA

SUBJECT : Draft DDCI Testimony for 14 July Hearing on
International Narcotics

1. Attached for your review is the draft DDCI testimony on international narcotics for the SSCI hearing scheduled for 14 July. The draft is based on the inputs received from the various components but necessarily represents a condensation of those inputs.

2. We are scheduled to meet with the DDCI at 3:00 on Friday, 9 July, to discuss the statement and backup materials. In order to provide the DDCI the benefit of your comments on the draft text, please get back to me no later than noon Thursday with any changes you wish to make.

3. The draft text is currently classified codeword, but I believe the level of classification can probably be reduced. Please advise me as well on this point. The codeword classification was intended to cover the material provided by the IC Staff.

4. The DO material included is sensitive and should be shown only to those people who have a strict need to know. In addition, I request that all copies of the draft text be returned to me at our meeting on Friday and that no additional copies be made.

5. Because the text is quite lengthy, I anticipate that the DDCI will request that a shortened version be prepared to submit for the record. You will have an opportunity to review such a text, should it be necessary.
